TECHNICAL SKILLS

Programming Language	Core Java, J2EE, MySQL
Frameworks	Spring, Spring Boot
Application/Web Servers	Apache Tomcat
ORM Tool	Hibernate
Web Components	Servlet, JSP
Tools	Git, Maven.
IDE	Eclipse, STS

PROJECT DETAILS

Project #1	HPHConnect
Client	Harvard Pilgrim Health Care, USA
Environment	Core Java, JSP, Hibernate Framework, Spring MVC, Tomcat, Oracle, Eclipse.
Role	Team Member
Team Size	10
Duration	July 2020 to till date

Description: This project manages the subscribers for various types of health insurance policies.

Subscribers can be registered through a Broker on behalf of an employer. One party id is assigned to the subscriber. Same party id is used for the dependents. Subscriber can edit the information of dependents but dependents cannot edit the information of subscribers. Employer can also directly contact the provider who is providing insurance. Before enrolment for the employer, employer has to fill some pre-enrolment form. Based on the information filled in the form, insurance provider company will give the rates for the policies. This application is connected with various other applications supporting the provider company.

Responsibilities:

- Involved in Application development.
- Implemented spring controllers.
- Implemented DAOs and its implementation with Hibernate.
- Implementing functionalities in the controller based on the request.

Project #2	BookAdda
Client	Ishita Technologies Pvt. Ltd.
Environment	Core Java, JSP, Spring, Hibernate, Web Services, XML, MySQL, and Tomcat.
Role	Team Member
Team Size	7
Duration	April 2019 to June 2020

Description: BookAdda is E-commerce based project where users can buy books online. Books have been categorized in various categories so that they can find books very easily. There is a search option where users can enter book name or ISBN or author title to get books. Users can get the related books also for the searched books. If books are not currently in stock then there is 'Notify Me' facility. Users need to submit their emails. When books become available, users will be notified by email. Users can buy books as a guest or with account.

Responsibilities:

- Implemented Action Classes and JSP's.
- Written Spring DAO's and their implementations With Hibernate.
- Written Hibernate components.
- Integrated Spring, Hibernate.
